Table Parsing Challenges

This document contains tables with various parsing challenges that test Johnny5's table processing capabilities.

Long Table (Splits Across Pages)

This table has many rows and will split across multiple pages, testing Johnny5's ability to handle page breaks in tables:

Table 1: Product Inventory - Long Table That Splits Across Pages

Short Table

This is a simple short table for comparison:

Table 2: Employee Directory - Short Table Example

Name	Department	Salary	Start Date
John Smith	Engineering	\$75,000	2023-01-15
Jane Doe	Marketing	\$65,000	2023-03-22
Bob Johnson	Sales	\$70,000	2023-02-10
Alice Brown	HR	\$60,000	2023-04-05
Charlie Wilson	Finance	\$80,000	2023-01-30

Conclusion

These tables demonstrate common parsing challenges that Johnny5's fixup processing should be able to handle:

- Tables that split across multiple pages
- Different table sizes and structures
- Consistent formatting within tables
- Proper handling of page breaks in table content
